

# Technical Specification Sheet

## GCH120N 120mm Std. Cut Cyclone

### Technical Description

|                      |                      |
|----------------------|----------------------|
| Type                 | Standard Cut Cyclone |
| Size                 | 120mm                |
| Cone Angle           | 17°                  |
| Spigot Size          | 12 - 16mm            |
| Feed / Overflow Pipe | DN50                 |
| External Dimensions  | 680 x 270 x 270mm    |
| Material             | PU                   |

### Typical Working Parameters

|                    |                           |
|--------------------|---------------------------|
| Operating pressure | 0.5 to 4.0 Bar            |
| Flow Rate          | 10 - 20m <sup>3</sup> /hr |
| Max. Feed Size     | 1.0mm                     |
| D50c (typical)     | 9.0 - 16.0µm              |

### Features

High flow capacity

Suitable for use as a stand alone cyclone
