## GCH25F 25mm Fine Cut Cyclone

### Technical Description

Type	Fine Cut Cyclone
Size	25mm
Cone Angle	5°
Spigot Size	2.0 - 6.0mm
External dimensions	495 x 130 x 90mm
Weight	1.25kg
Feed ID / OD	20.3 / 30mm
Material	PU

### Typical Working Parameters

Operating pressure	0.5 to 4.0 Bar
Flow Rate	0.5 - 1.5m <sup>3</sup> /hr
Max. Feed Size	0.2mm
D50c (typical)	3.2 - 5.7µm
Underflow ratio	5 - 40%

### Features

Very fine cut size for de-slime and de-water applications

Suitable for installation as a stand alone cyclone or as part of canister and radial assemblies
